

**Project:**

Jiangsu Coal Fire Plant

**Client:**

Nanjing Power

**Distributor:**

Nukote Coating Systems

**Contractor:**

Lang Dang Corrosion Co.

**Application Type:**

Waterproofing-Corrosion Resistance

**Completion:**

2004

**Scope:**

The Project included internal coating of concrete cooling water tanks, internal and external coating of process tanks and miscellaneous deck and steel component coatings.

**System:**

1000 Microns of Nukote Aromatic HT Polyurea (various colors) over 100 Microns of various primers dependent on substrate type. Decks and walkways included application of 500 Microns spray applied (no broadcast media) texture coat.

**Surface Area:**

22,000 m<sup>2</sup>

**Completion Date:**

August 2004

**Results:**

No disbondment or other failures encountered and customer has specified products for use in Phases II and III in 2005-2006.
